LINKEDIN: <https://www.linkedin.com/in/akshat-patel-b4a998185/>

Student at Oregon State University pursuing a B.S. in Computer Science along with a Minor in Business Analytics. Highly motivated student who excels in a wide range of technical skills, works well with others, and has a strong social network. Ability to inspire and direct a team of high-performing individual contributors. As a student with a strong foundation in Software Development, Data Analysis, Business Modeling and IT Project Management, I am eager to leverage my knowledge and passion into a role that would allow me to learn and grow from experienced team members.

EDUCATION

Bachelors of Science in Computer Science & Minor in Business IT

Sept 2021 – June 2026

Oregon State University, Corvallis

PROFESSIONAL EXPERIENCE

Business Analytics Intern, [NovaTech USA](#), Hillsboro OR

April - Present

- Increased forecasting accuracy by building demand prediction models using exponential smoothing in Excel, resulting in more reliable inventory planning and production scheduling.
- Accelerated recurring reporting by developing structured Excel workbooks to track sales by customer and item.
- Presenting sales data insights and forecasting outcomes in regular production meetings, resulting in more efficient production management and operational planning.

Software and Business IT Intern, [Extendrum Technologies](#), Portland OR

January - April

- Improved delivery efficiency by leading client and development meetings to translate business requirements into technical specifications.
- Developed interactive dashboards and KPI scorecards in Power BI to visualize operational and enable data-driven decision making.
- Developed AI-Powered workflow solutions using MS Power Apps and Power Automate for client-specific business processes.
- Implemented OpenAI language models within PlatShift platform, enhancing platform functionality using AI-driven automation.

Database and Analytics, [Prime Natural](#), Portland OR

Nov 2025 - January

- Built analytical dashboards that tracked key metrics such as product performance, sales trends, and customer engagement to support decision making and improve e-commerce visibility.
- Developed and maintained customer and product databases to improve data accuracy and e-commerce operations.
- Collaborated with the business owner to translate raw data into actionable insights, improving stock planning and marketing.

Level 2 Lab Tech, Intel Ronler Acre, Hillsboro OR

June 2023 – Jan 2024

- Improved Lab testing efficiency by leading projects that were integrated into standard workflow.
- Worked closely with senior engineers in testing automation scripts that increased testing accuracy and reduced manual errors.
- Collaborated with senior engineers on die testing procedures and ensuring seamless testing protocols.
- Gained comprehensive cleanroom/FAB experience, consistently adhering to strict protocols and maintaining a safe work environment.
- Coordinated with cross-functional teams to streamline workflows and minimize operational disruptions.
- Diagnosed and resolved software and hardware issues in test setups, improving system reliability.

REVELENT PROJECTS

Senior Capstone: Cross - Platform Fitness Tracker

In Progress

- Increased workout personalization for beta users by developing a cross-platform iOS and Android fitness app in Flutter with AI-driven workout generation.
- Delivering features across a 5-person Agile team using Git/GitHub, sprint planning, and React Native for prototype testing.

SKILLS

Technical Skills: HTML, CSS, JavaScript, [Node.js](#), C/C++, SQL, Python, Git/Github, Docker, Flutter, PowerBi/Tableau, MS Power Platform, Claude Code, Cursor, Windsurf, AWS

Frameworks & Methodologies: Agile, Scrum, DBMS, Data Modeling, Business Analysis
